**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to a method of processing negotiable economic credits, classified in class 705, subclass 17.
  - II. Claims 11-14, drawn to a method of processing negotiable economic credits and transferring to a retail enterprise, classified in class 705, subclass 22.
  - III. Claims 15-20, drawn to a system for processing negotiable economic credits, classified in class 705, subclass 26.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Groups II, III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as prioritizing credit service to specific users. See MPEP § 806.05(d).
3. Inventions Group II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group III has separate utility such as prioritizing point of sale orders to retailers. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 703-308-7808 (571-272-6789 after April 13, 2005). The examiner can normally be reached on Monday thru Friday.
